Subaeria is a sci-fi thriller game, set in a future where human beings have the power to manipulate time and space. Humans have moved to new planets after Earth became uninhabitable, but a deadly virus, spreading across the universe, destroys the human civilization. In Subaeria, the player assumes the role of a criminal rebel pilot, who escapes from a prison transport vehicle and is transported to a distant planet in a time loop. In this time loop, the player must defend himself from the police and stay alive to stop the virus from killing all of humanity. What's New in Version 0.9.1:

Usurper Description : The main character of the game "Usurper" is one you choose. This character will grow and change throughout the game - such as gaining level ups, new weapons, new spells, new skills, and new stat bonuses. By the end of the game, players will have access to over 90 unique items. In a medieval UK province a mad king has torn the Kingdom of Cotswold apart. He used a powerful summoned entity known as the "Caelum Apella" or "The Caelum". The playing field is a randomly generated landscape, full of evil "Hellhounds" (nicknamed "Cultists"). Each Caelum takes on a different personality, with different dialogue responses to the player. But this is not another spooky point& click adventure. There are dangerous traps, many puzzles, lots of fighting and lots of traps and all that in this game. To get the hellhound out of the room, the hellhound will have to have the wit, courage and good sense to avoid the magic spell traps. The Caelum character has been designed in such a way that it has a personality and feelings. You will play the character who will have a completely new way of interacting with your world. Each level is different, making

it really unique. New players will be able to understand this game in no time, while experienced players will enjoy the tricky puzzles. Here is a walkthrough of the game. If you like this game please leave a comment. UVERDICT ADVENTURES The game is unique in that you are the God character. The game is based on a turn based combat system. The objective is to outwit the god, acquire power points and beat the other gods. The battles consist of a series of turns each with its own configuration. There are no global statistics that are visible to the players. You have to see everything to know it. At the end of each turn you can save the game which includes your current configuration. The next turn you can reset to any of the previous configurations on save. Try this fun game designed by a friend of mine. Cool concept and 3D graphics. The game is different because you are the boss. You can create levels, change difficulty, create weapons. You can also create gadgets. Try

What's new in You You N Music:

from Tunesi Nudes on the Water (in the 80's) The saga of a young girl's summer holidays begins with a balmy winter. While her parents are at work and her brother is out of town, Dan has decided to spend the summer in her (?) neighborhood, the beach. She offers him the newly decorated room at a pretty reasonable price. Dan becomes curious to find out exactly why he suddenly needs a place to stay in a tiny village, surrounded by scenic villages and resorts. He soon discovers that a new rich couple occupy most of the houses at the beach. Dan himself is the most elevated resident of the area, he thinks. Interesting sights and situations now and then may happen, but all in all this is only a consolation fable. Read and enjoy! Vladimir Vdovic's story of the beach is part of a series of novels dealing with the northern part of Japan: also Murmurs of Rain and Snow, The Sleepless Bird, Rogue Dragon, The Black Whales, The Lotus and the Moon, The Eternal Traveler and The Pawn. The title story is published in THE BEST international small magazine of short stories in 2011 and takes over 25 pages of the journal. The best advice would be to visit the magazine website to get the table of contents: The story was translated by Valeria Nere and Marina Prinz. As a bonus for our dedicated readers we offer the original version by Vladimir Vladovic (translated by Valeria Nere):

******* This is the story about the other piece of digital muse - Land of milk and honey... A woman walks in that land, and she asks a man wearing a flowing robe, to consider her as the future wife. And the man says, "Yes, you are very pretty girl, but you have to pass several tests, before you can become, the future wife of the person. First you have to eat some honey, in the grass as many bees are buried in this land, because they did not succeed to leave this land. And they can not leave**

because of the warm weather.. You have to drink milk three times a day, during all the day, as you are staying in this land. If you did it, the heart will not beat, the brain will not work correctly and you will remain here foreverly,
