Crack.Q: How to add
Jquery Css in ReactJs
app I want to
integrate jquery in
reactjs app. So I
started this And

things are working fine in basic project.

But while trying to use any jquery css in my project. I am getting this error

Uncaught Error:

Invariant Violation:

template!.js:1015:99

Line 1015 is the

return
this.setState({...});
in the render()
function. I have not
used any elements
for css in my render
function. Render
function render() {
return (); } What
changes need to be

made for this to
work? A: So this is a
non React js error.
You are using normal
JavaScript on the
server. I would
recommend that you
follow some basic
React tutorials
